10/2011 - 03/2012

Senior Software Engineer - Database Replication Specialist.

Analysis, implementation and mantainance of a geographical replication of a Mysql DBMS. Currently he is working on the analysis phase of a software that play the 'transformer' job for replication between two DBMS of different generations to allow database upgrade with a minimal down of services

Lucini & Lucini Communications Europe, 5, Libertà avenue, 23875 Osnago - Lecco - Italy.

Leading company in e-mail marketing, operates on a global level guaranteeing the delivery of approximately 61 millions e-mails every day.

Dates

Occupation or position held

08/2003 - 9/2011

Senior Software Engineer - Team Leader.

Main activities and responsibilities	<p>Design and development of the software that exposes at high-level the multimedia functionalities of the used hardware giving generally the services for the user applications with that they are interfacing; developed in C and C++ for more embedded platforms, this application's based on a multi-thread and object-oriented architecture. Superintendence of the development team dedicated to this program. He has collaborate to the constitution of the corporate proceedings for the management of all the software life cycle (specifications, source versioning, build system, releases, testing, bug administration). Responsible of the versioning systems of the sources and of the software application releases. During this activity has been made software porting to the Broadcom platform – before Sigma Design and VWeb – always minimizing the behavior differences of the API showing by us against heterogeneous hardware. Agile development methodologies (XP, scrum, pair programming...) have been obtained and used by all the teams.</p> <p>2008 - 2011: he got the team-leader's and software-architect's role, he had involved in the design of new software functionalities and he coordinated the work with other teams, acting like interface with the project manager.</p> <p>2005 - 2008: he held the position senior developer and, beyond software development, he followed the selections of junior members of the team and he took care of their growing.</p> <p>2003 - 2004: he joined the company as developer to design and develop of the multimedia middleware core, building from scratch all required software infrastructures (libraries, versioning system, etc).</p>
Name and address of employer Type of business or sector	<p>TVBLOB S.r.l., 9 Paisiello Street; 20131 Milan, Italy.</p> <p>Starting from zero the company had been able to complete all the software provided with digital-terrestrial/internet set-top-box "Hibrid Blobbox" of Telesystem arriving first of 13 products of the same segment on the pages of the monthly PC Professionale of March 2011, conquering their "PC Professionale Gold".</p>
Dates Occupation or position held Main activities and responsibilities	<p>01/2002 - 08/2003 Analyst Programmer.</p> <p>Member of the Research and Development Group. He has projected and realised a graphic application for the web pages customisation oriented to the enjoyment of the video streaming or video on demand. He has projected, developed and oriented a system composed by a video-server with four telecameras situated on a pole at 90 degrees among them and one meteorological control unit. This apparatus allowed to download from a mountain resort where the apparatus has installed every 5 minutes the 4 photograms and the meteorological data into a central server. One time arrived the images were processed to minimise the differences of the form and the colour in proximity to the junction lines and at last assembled on the internal faces of one virtual cube where at the centre was situated the observer to generate a panorama of 360°. Data and panorama at 360° were enjoyable for the web user through one Java navigation applet reachable through a promotion tourist web site.</p>
Name and address of employer Type of business or sector	<p>Digital Identity S.r.l., 29 Bellini; 20095 Cusano Milanino (MI), Italy</p> <p>Company leader in Italy in the sector of the video streaming.</p>
Dates Occupation or position held Main activities and responsibilities	<p>09/1998 - 12/2001 Analyst Programmer.</p> <p>Development of engines for the support of the protocols HTTP, Telnet, FTP and SMTP client side for one communication program on web/serial, development of a wiki engine to pass after into the team of the production of the applications sold and used from the company.</p>
Name and address of employer Type of business or sector	<p>Dynamica S.r.l., 7 Sidoli, 20129 Milano, Italy.</p> <p>Company that work in the information technology sector from over 15 years with important outcomes in the field of transition of order between wholesalers and retailers.</p>

^(*) Common European Framework of Reference (CEF) level

During the last years I have the possibility to coordinate the people that working within team (foreigners too, mainly from remote, being scattered on all National Area), to interact with profit with the other groups of the company and with the foreign groups. In these situations he looked for a good maintenance of balance between the opening toward the proposals of the members of the team and the respect of the specifications established at the beginning of the project.

Management of our team and of the project specifications matured during years, ability of comparison and to arrive to the efficacious solutions, always. In the other workplace: on November 2002 he was responsible of the "Linuxday@Feltrinelli" event for the Cultural Association MiLUG during he had obtained the abilities on a civic event in all of its aspects: logistic, coordination, communication, etc.

Operating systems: a excellent knowledge of GNU/Linux - specially the *Debian* and *Ubuntu* distributions, from whom he learned the packaging techniques, a fair experience with the other Unix, and with the NT Windows system and the following.

Languages: a excellent knowledge of C and C++ languages, a fair knowledge of Java, knowledge of Lisp-Scheme.

Scripting Languages: a excellent knowledge of PHP (4 and 5) and Bash Shell Scripting, a fair knowledge of Python, Javascript, actionsript.

Markup Languages: a good knowledge od HTML (Web 2.0 tools included), CSS, XML/XSLT, SVG.

Assembly: a fair knowledge of *Z80* assembly, *MC68xxx* and *x86*.

Toolchains: creation and use of the ambient for the cross-compilation (x86=>MIPS) under GNU/Linux.

Database: a good experience into the design and realisation of databases, SQL and Procedural Language *pl-pgsql* of the databases *Postgresql* and *Mysql* and for the latter: replication knowledge.

Versioning: a good knowledge of versioning system *git* and *cvs*, a fairly good knowledge of alternative systems like *svn* and *bazaar*.

Bug Management: a good knowledge of the web-application *bugzilla* (use and administration) for the notification and the tracing of the bug signalling from the testing team.

Design Tools: a good experience in the use of the UML diagram like compendium of the specifications, knowledge of the Patterns Design and the tools for the documentation like *Dockbook* and $\text{\TeX}/\text{\LaTeX}$.

Regression testing: a good experience in the development of the ambients for software testing, beginning from the single components of the library till the reproduction of complicated scenery like network atypical situations, malfunction of the disk or other.

Web Protocols: during the years he matured experience with the web protocols at application-oriented level and the knowledge of the packet forging.

PC, Sun, IBM, Amiga, suite *OpenOffice*, management of the planning.

Computer-graphics, photo editing and image authoring

Founder member of the Cultural Association MiLUG (Milan Linux Users Group).

Driving licence(s)

A and B (car and motorbike).

Additional information

Online web-applications

Brisk - multi-user web based card game: real-time using push technologies.

URL: <http://www.alternativeoutput.it/brisk>

3gates - web infrastructure for strong authentication using National Services Card and its Certification Authorities, complete with CRL verification and automatic update.

URL: <https://brisk.mine.nu>

Free software

Some projects sources at URL: <http://www.alternativeoutput.it/git.php>

Publications

Publication on the official site of the *Postgresql* database of the article "*Avoid overlapping intervals*" (2001), having like subject the inhibition of the superimposition of the intervals through triggers func.

URL: http://wiki.postgresql.org/wiki/How_to_avoid_overlapping_intervals_with_PostgreSQL

Publication on the italian review of astronomic culture "*Lastronomia*" (n.265, June 2005) of the article titled "*Sleeping under the stars*" having like subject a software conceived and developed from himself for the photorealistic and three-dimensional rebuilding of a part of the vault of heaven on a ceiling.
